

<b>Programme Name</b>	Bachelor of Accounting
<b>Programme Description</b>	The programme will provide students with an in-depth knowledge of accounting, supported by knowledge of Associated Disciplines of Law, Economics, Finance and Statistics. The programme challenges students to think and operate independently and equips them with the knowledge, skills and confidence essential for working successfully in today's competitive global business environment with respect to preparation of final accounts and financial analysis. The Financial Accounting aspect of the programme is concerned with the collection, recording, summary, analysis and communication of financial information. Financial Accounting's primary concern is with providing information for people and groups who are external to an organisation. The Management Accounting aspect of the programme, on the other hand, provides information for managers within an organisation.
