

Program Name	Bachelor of Accounting
Program Description	This is a broad based program designed to equip individuals with conceptual understanding and practical skills in the operation of commercial activities generally. Fields of study include economics, commercial law, quantitative analysis and management with particular focus on accounting as a tool of financial management and external disclosure of business performance, viability and accountability. With practical orientation through projects, report writing and presentations the program also aims to equip the graduates with communication and people skills necessary to be effective team players in the real world.
