| <b>Programme</b>             | Master in Emergency Medicine  |
| <b>Programme Description</b> | The Emergency Medicine teaching program will develop a sound knowledge base and practical skill competency in the hospital emergency department setting in the Pacific Region. It aims to improve performance skills in: history taking; physical examination; ordering and interpretation of appropriate investigations, formation of a differential diagnosis & initial management (resuscitation/stabilization) of acutely unwell and injured patients. It aims to develop proficiency in emergency procedures and interventions, communication with other health care workers (at all hierarchical levels) and necessary skills in leadership and administration. The Masters in Emergency Medicine is an important step in the development of Emergency Medicine as a fully-fledged clinical discipline which will greatly improve the delivery of healthcare to the people of Fiji and other Pacific Island countries |
