

Programme Name	Executive Masters in Business Administration
Programme Description	The EMBA has been developed to reflect the increasing interest in this area domestically, regionally and internationally from professionals who have graduated with an undergraduate degree in their respective fields and have acquired Management positions but do not have theoretical grounding and practical knowledge of other areas of managing an institution. This programme will provide a transition from functional specialization and middle-management principles to comprehensive corporate visioning and decision-making. Students will learn to identify and mobilize talent across an organization with the view to maximize business opportunities. This programme is viewed as a terminal degree or as additional preparation (beyond the bachelor's degree) for more advanced study. Earning an Executive MBA will equip the students to gain skills in Finance, Human Resource Management, Information Systems and Business Laws. Students are required to undertake a supervised research project on examining a successful and failed
